

PEDESTRIAN CRASH ANALYSIS

PEDESTRIAN CRASH ANALYSIS

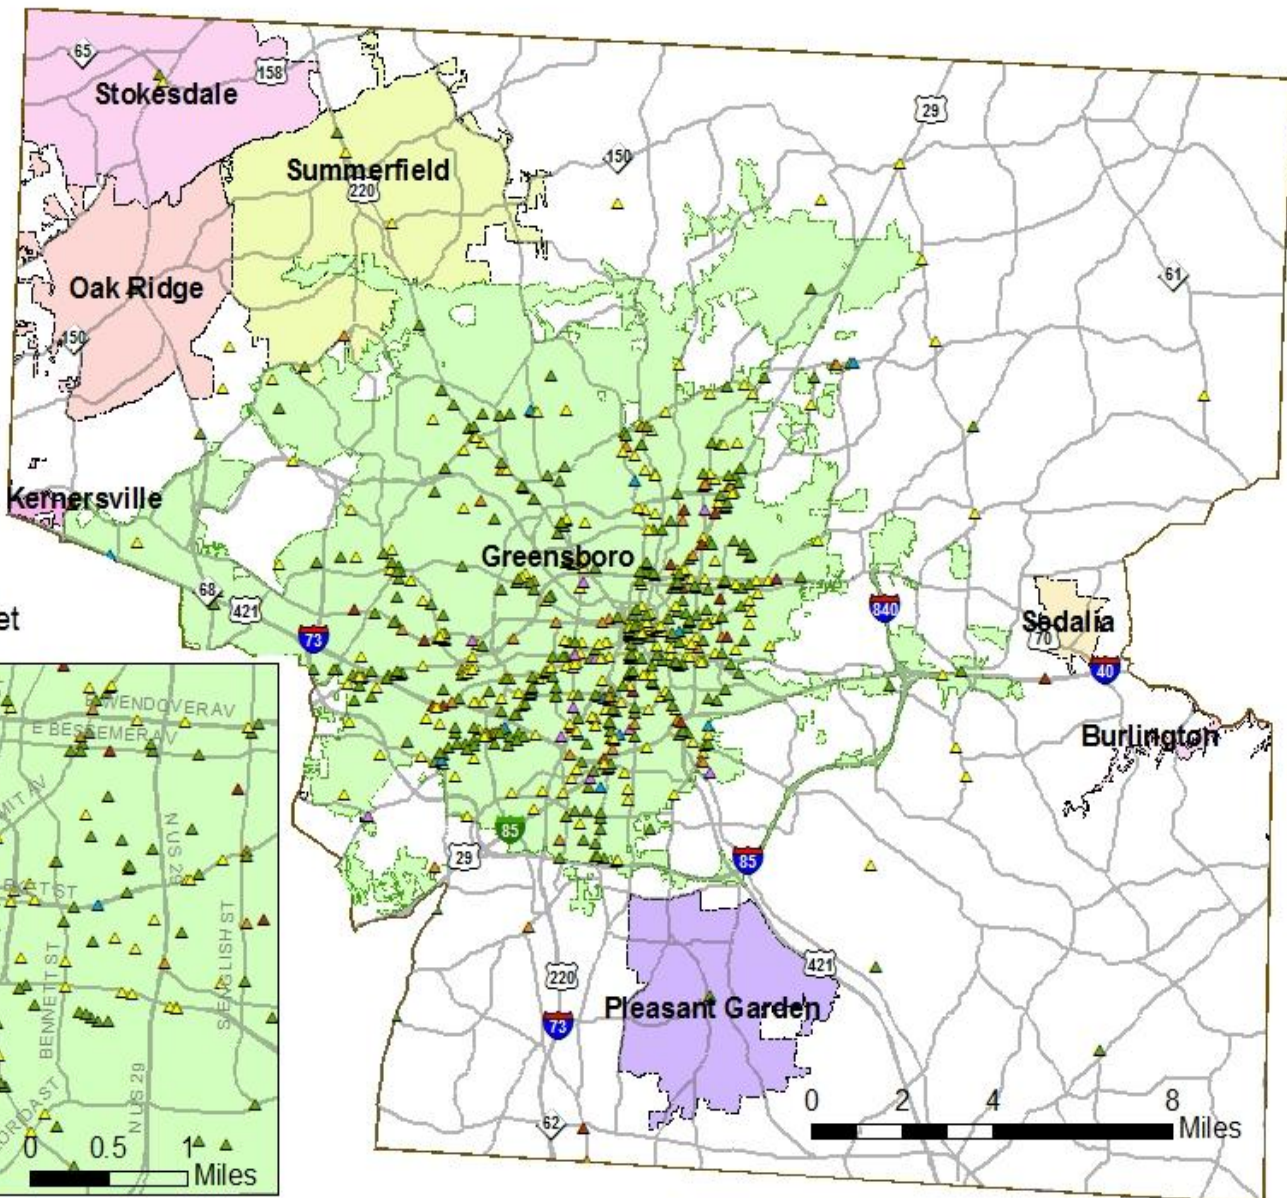

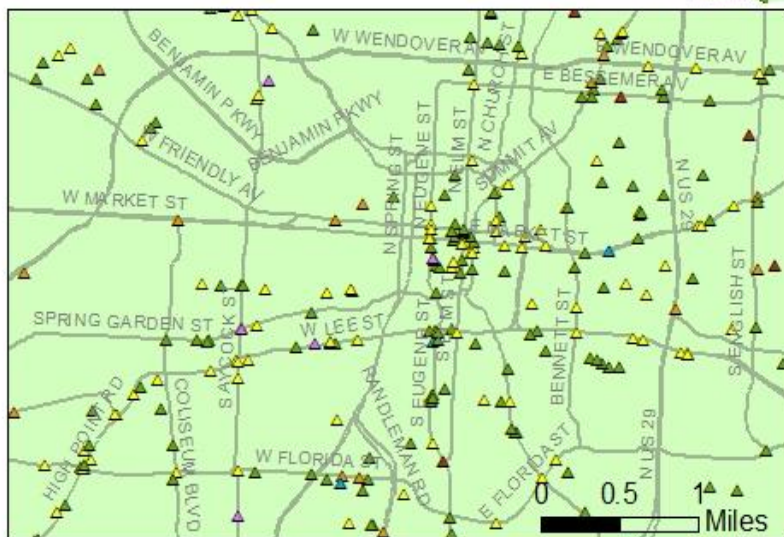

- Evaluating pedestrian safety is a critical precursor to recommending a system of pedestrian facility improvements.
- The Pedestrian Crash Analysis looks at all aspects of pedestrian crashes in the Greensboro Urban Area MPO.
- Identify all of the possible factors that contribute to the pedestrian crashes in the region:
 - ❖ WHAT is the trend of the pedestrian crash?
 - ❖ WHERE crashes happened?
 - ❖ WHY crashes happened?
 - ❖ WHEN crashes happened?
 - ❖ WHO involved in the crashes?

2007 - 2011 Pedestrian Crashes in Greensboro Urban Area MPO

Pedestrian Injury

- ▲ Fatality
- ▲ Disabling Injury
- ▲ Evident Injury
- ▲ Possible Injury
- ▲ No Injury
- ▲ Unknown Injury

Downtown Greensboro Inset

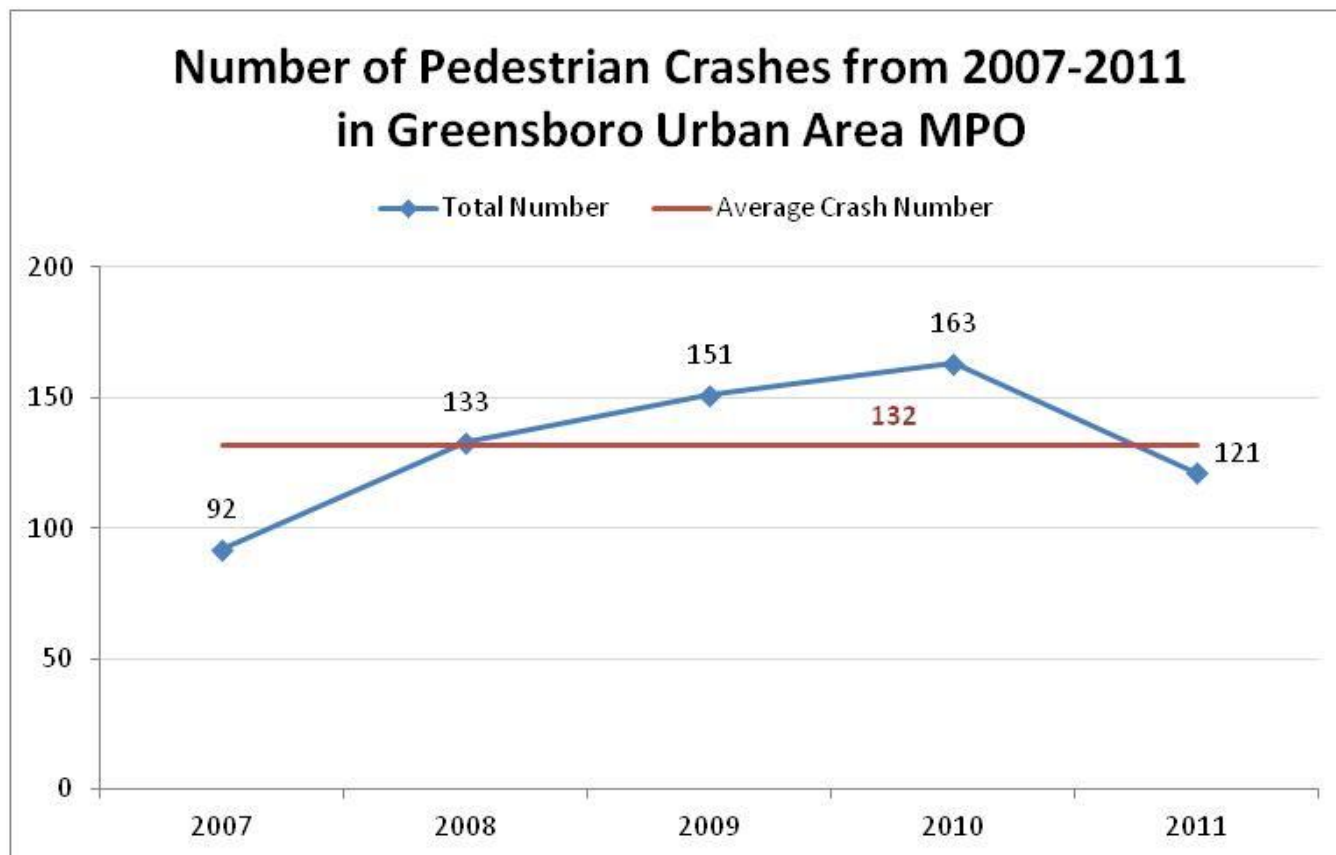

Data Source: NCDOT Division of Bicycle and Pedestrian Transportation

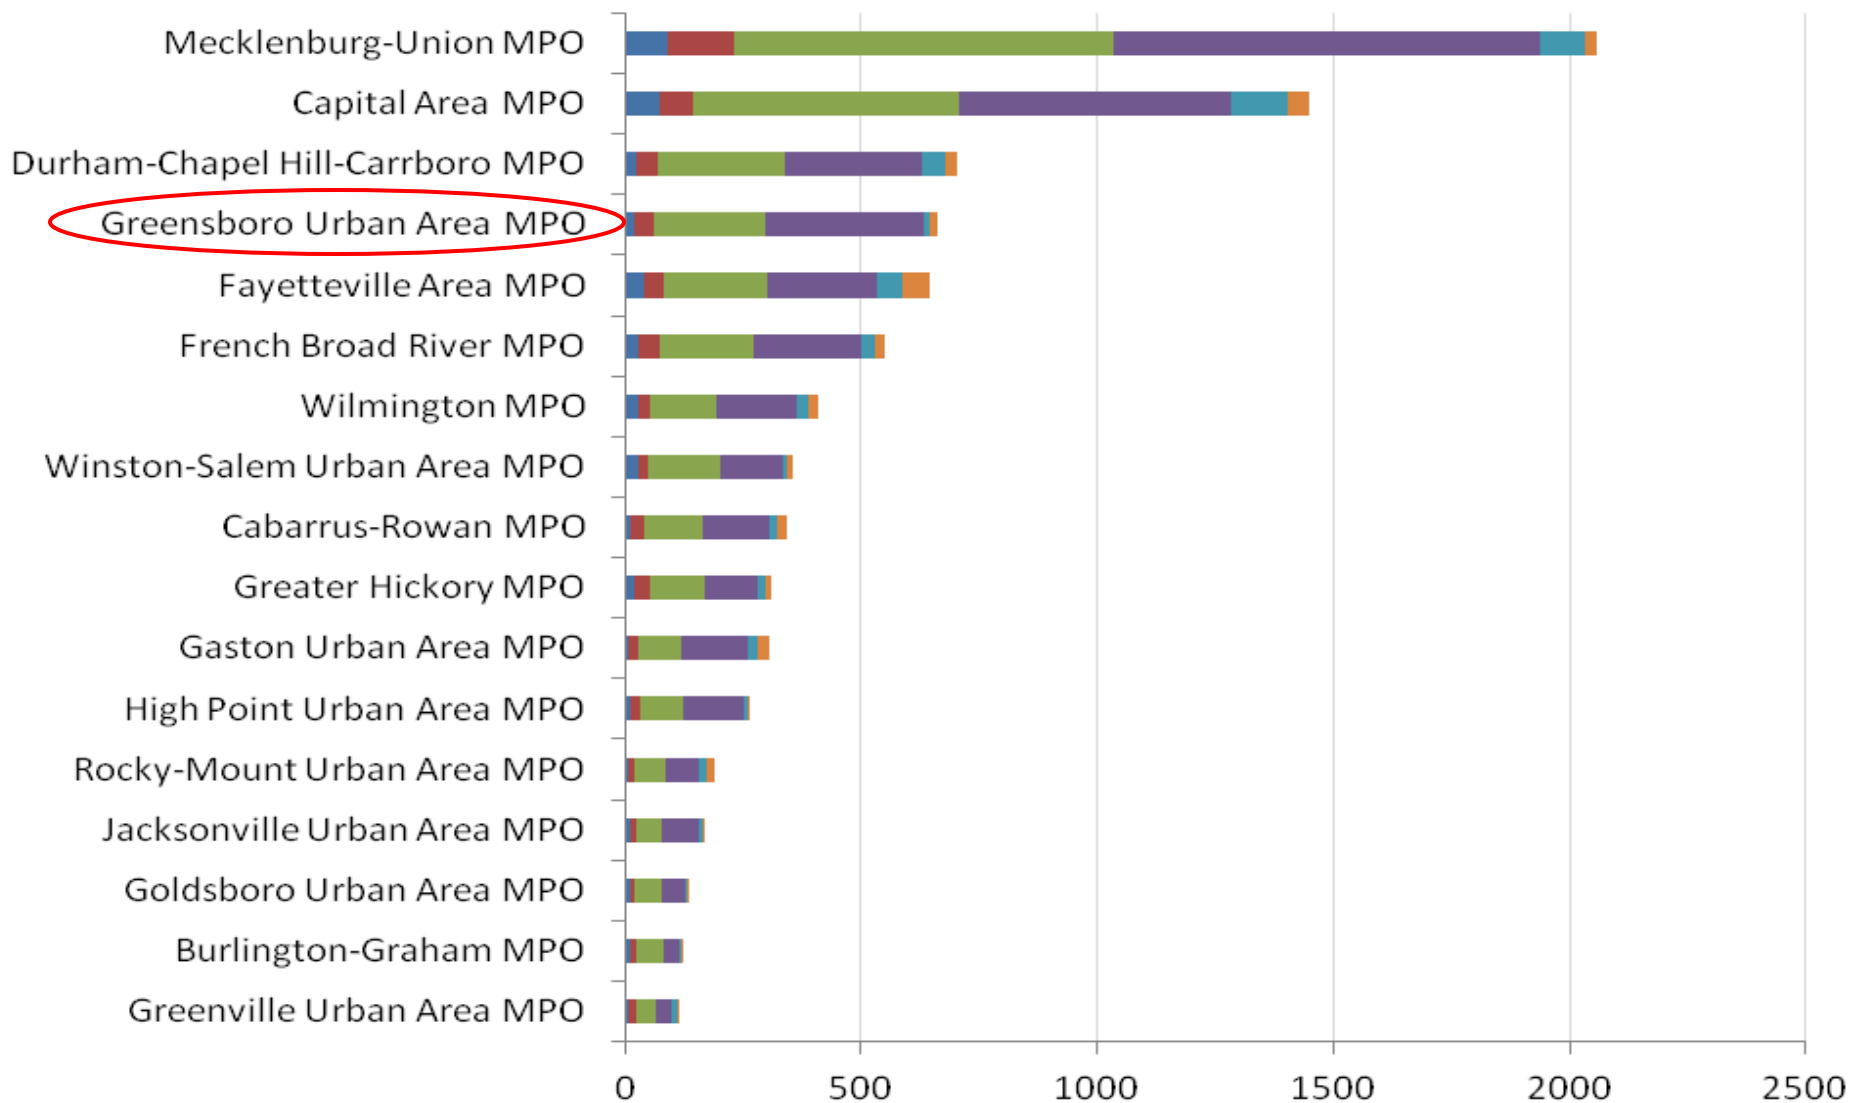

KEY FINDINGS: WHAT IS THE TREND OF PEDESTRIAN CRASHES?

- An average of 132 pedestrian-motorist crashes occurred annually from 2007-2011.

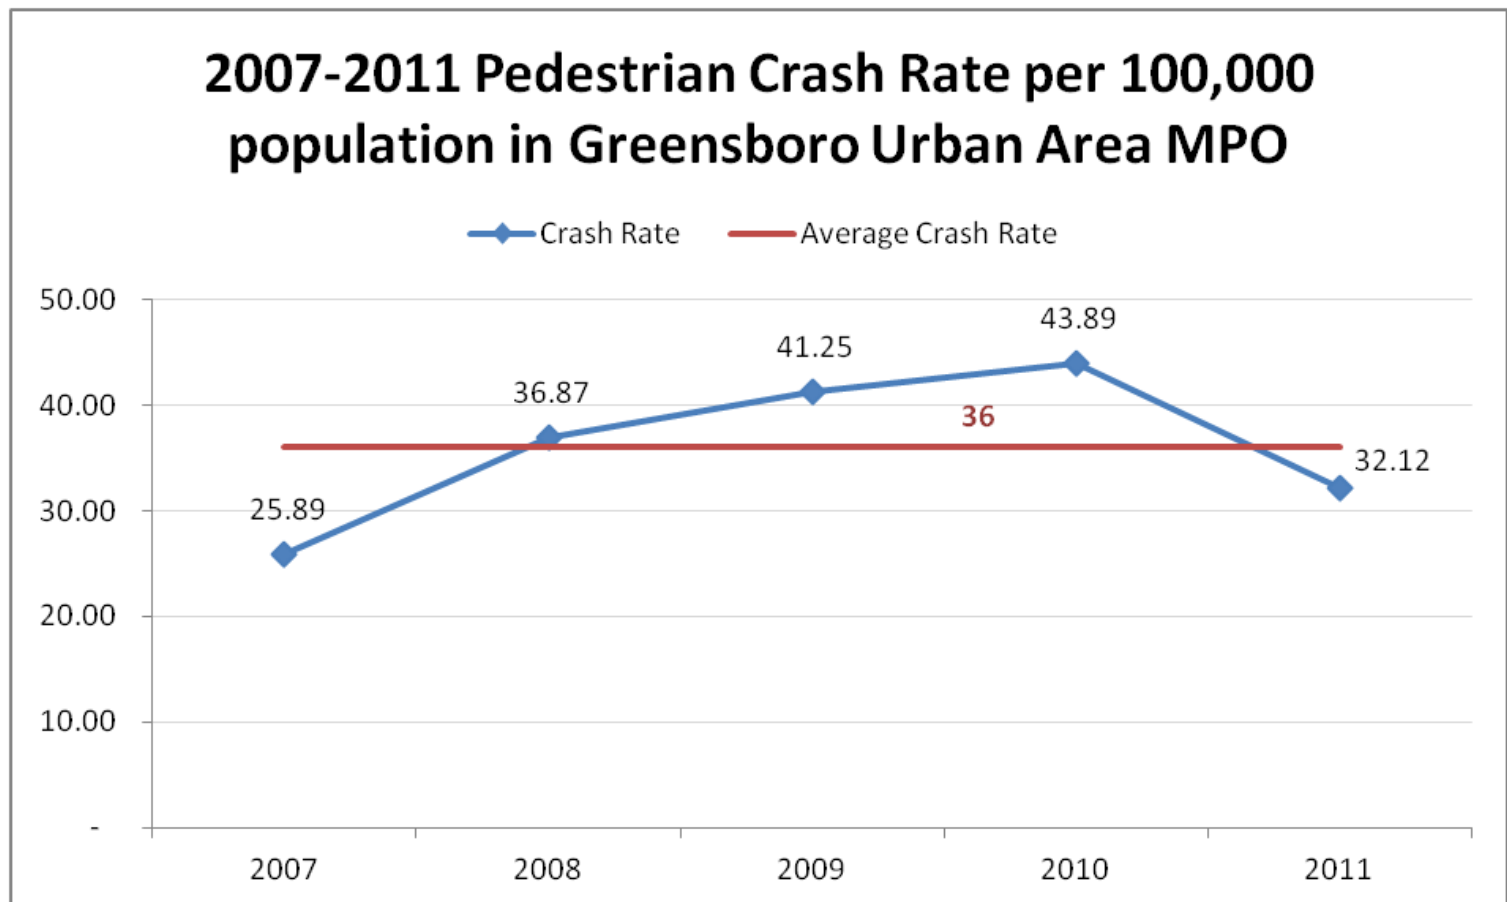

Number of Pedestrian Crashes in MPOs from 2007-2011

Fatality Disabling Injury Evident Injury Possible Injury No Injury Unknown Injury

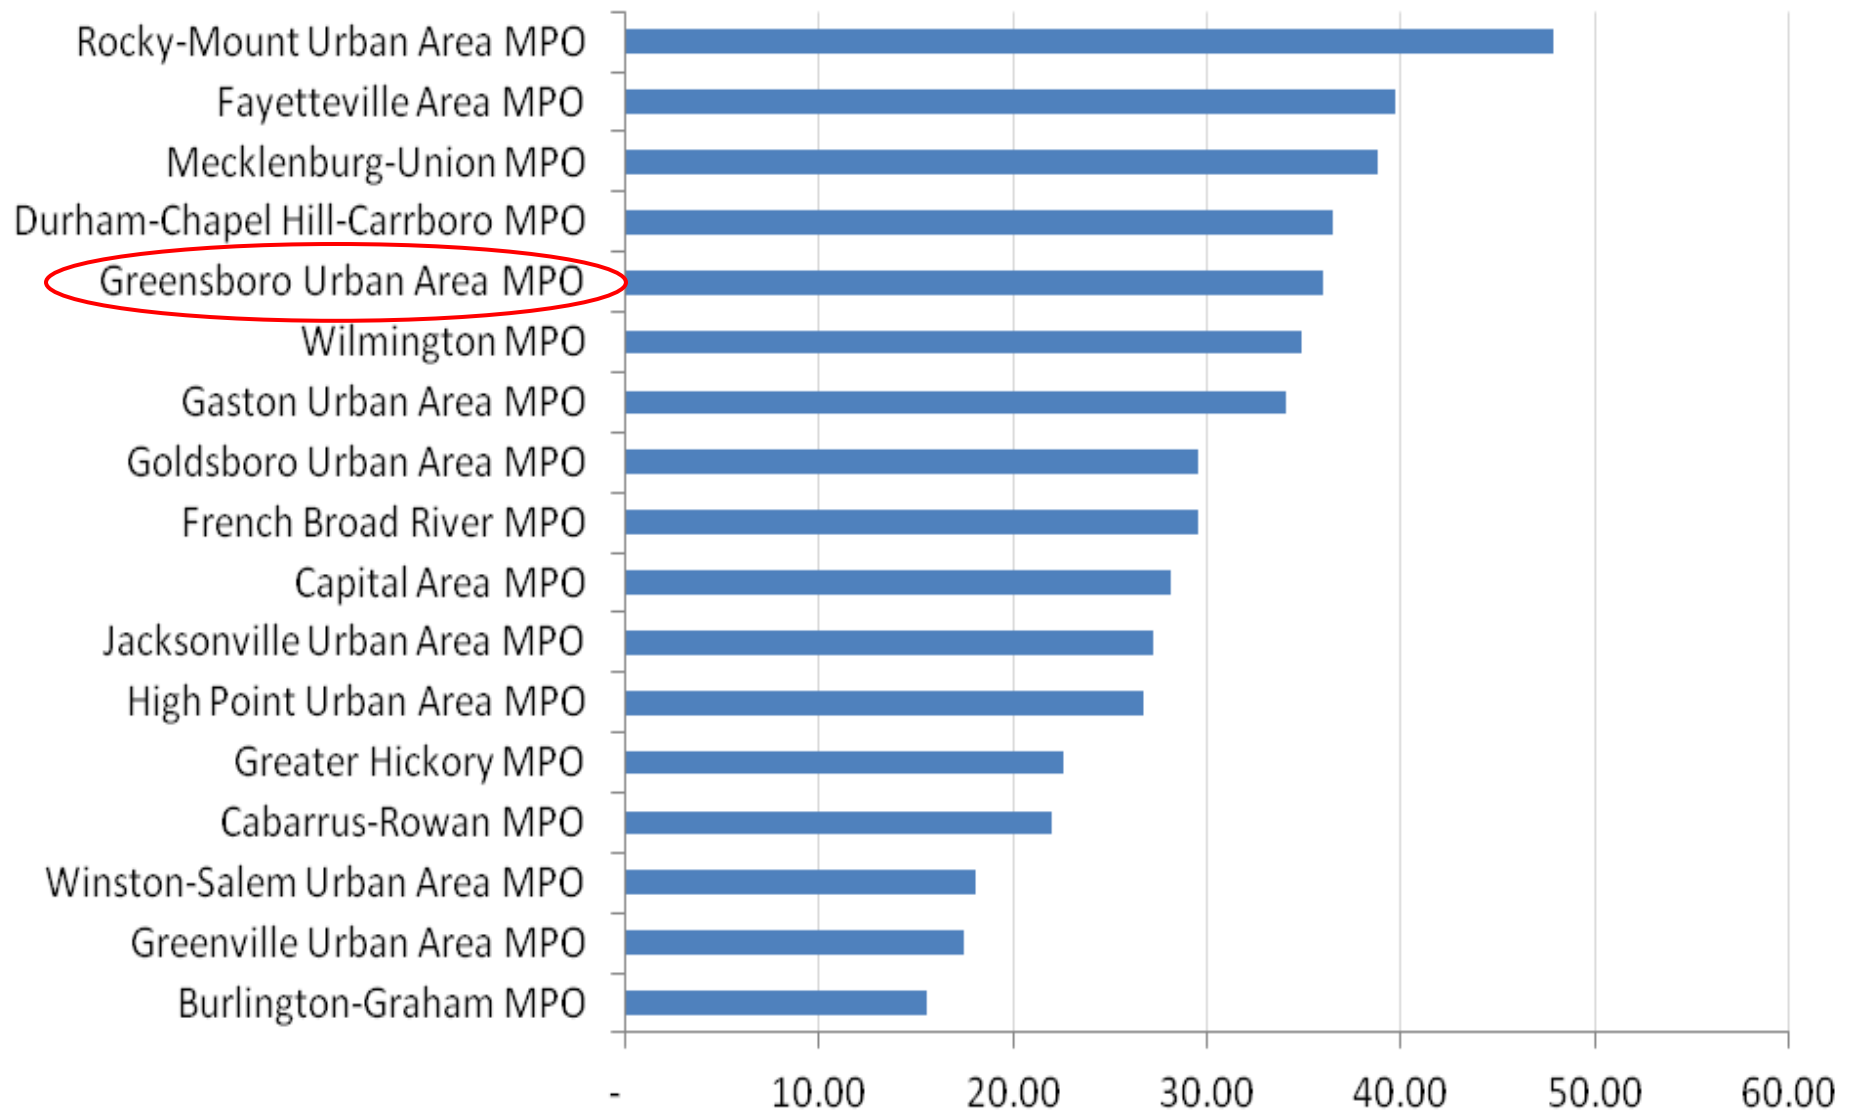

KEY FINDINGS: WHAT (Cont.)

- The average of pedestrian crash per 100,000 population was 36 from 2007-2011.

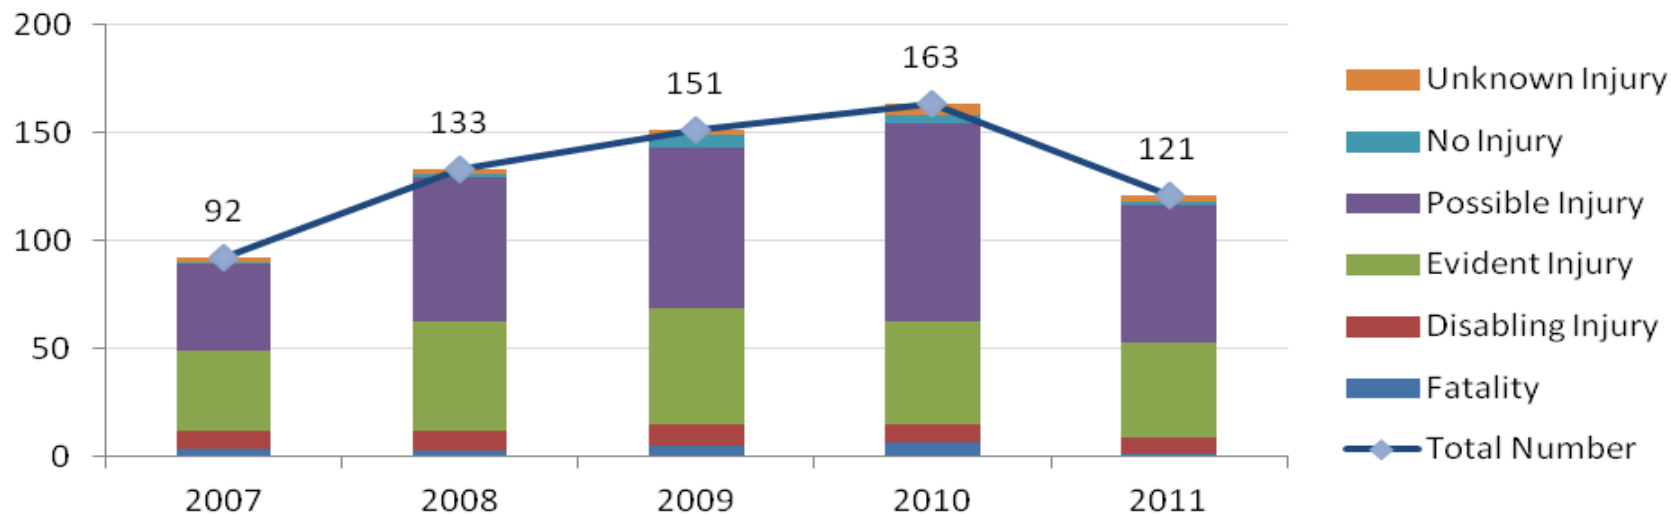

Pedestrian Crash Rate per 100,000 Population in MPOs 2007 - 2011

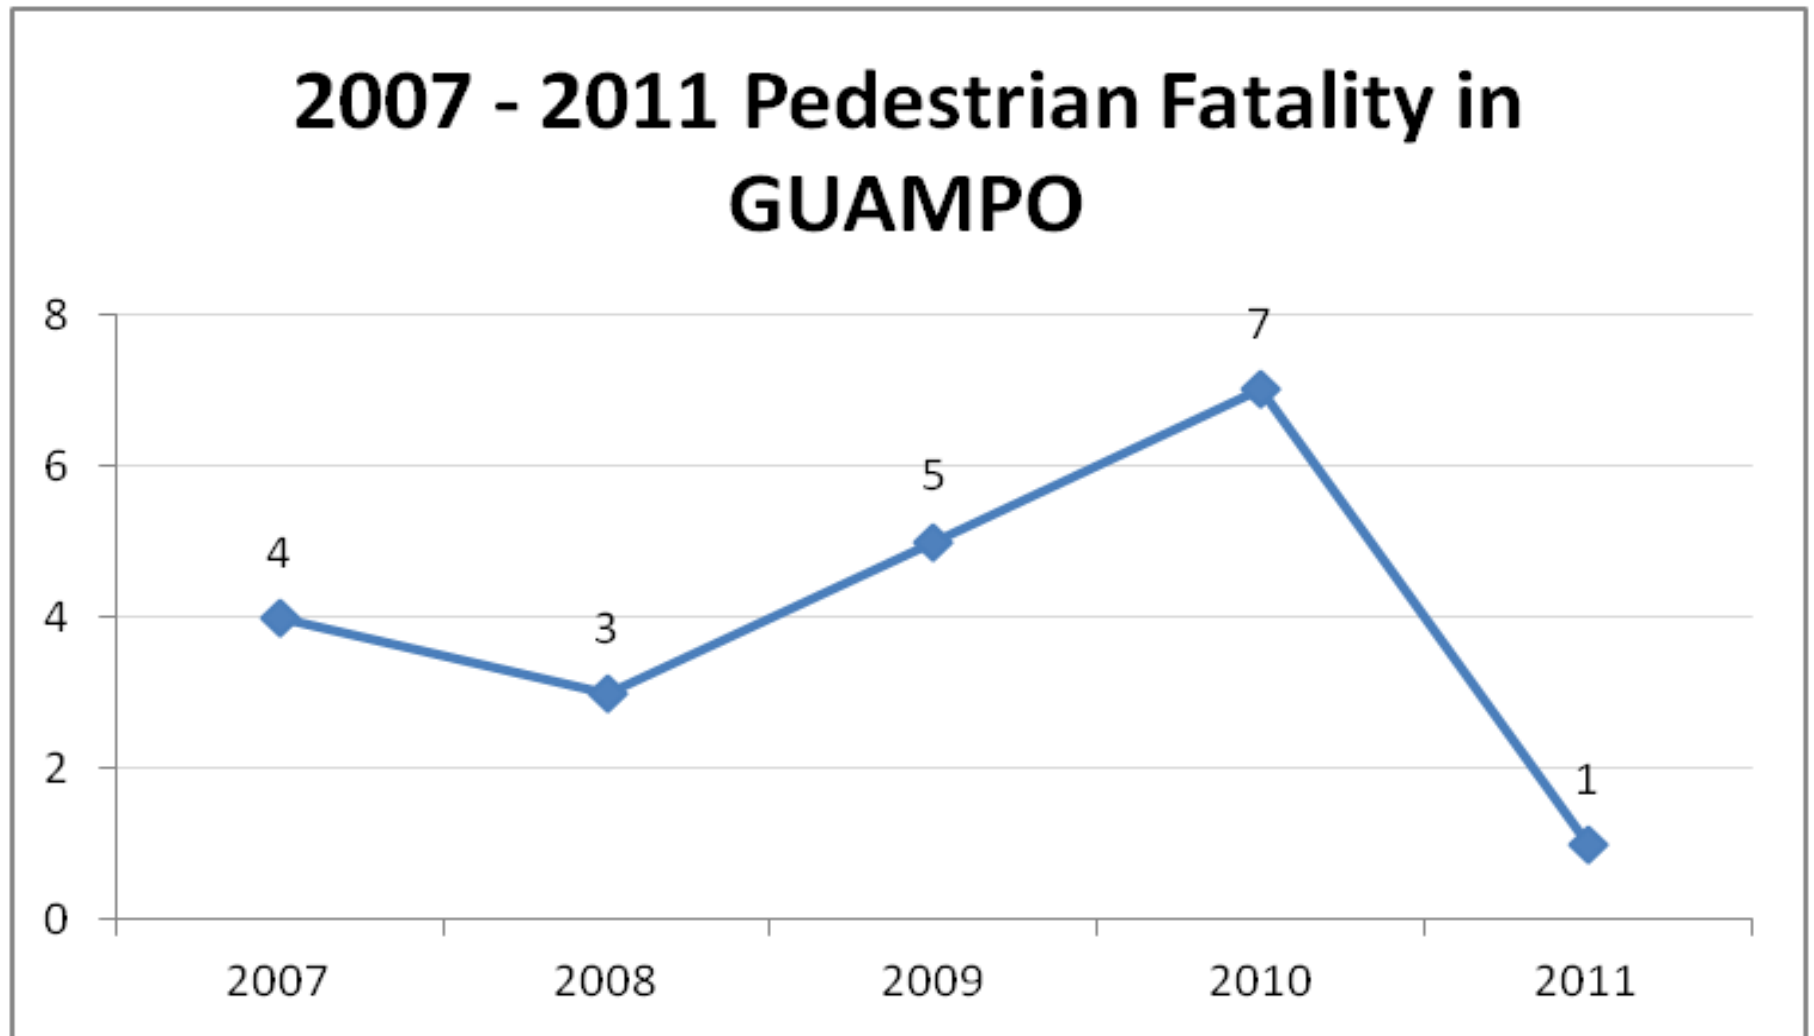

KEY FINDINGS – WHAT (Cont.)

Pedestrian Crash Severity from 2007 to 2011 in Greensboro Urban Area MPO

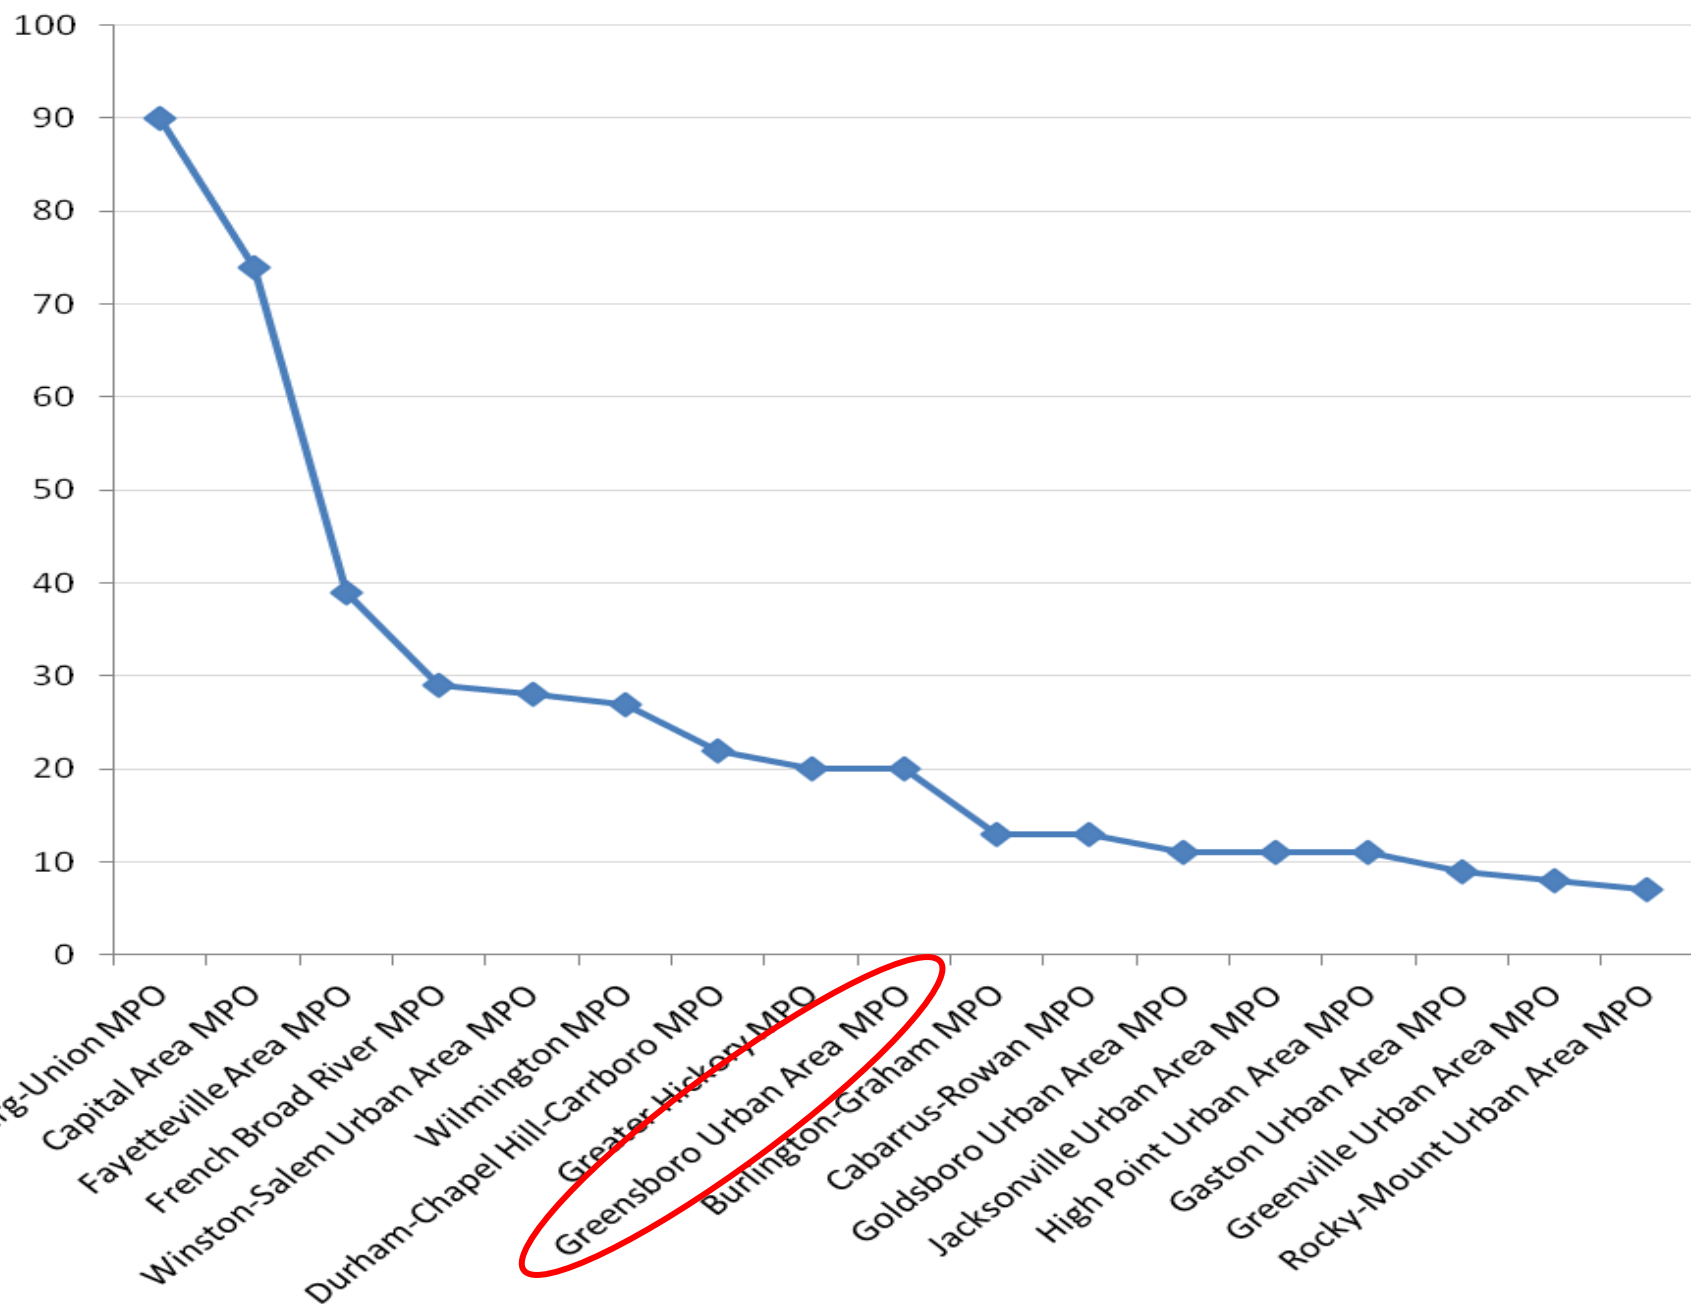

| Severity Injury | Severity Score |
|----------------------|----------------|
| Fatality | 5 |
| Disabling Injury | 4 |
| Evident Injury | 3 |
| Possible Injury | 2 |
| No or Unknown Injury | 1 |

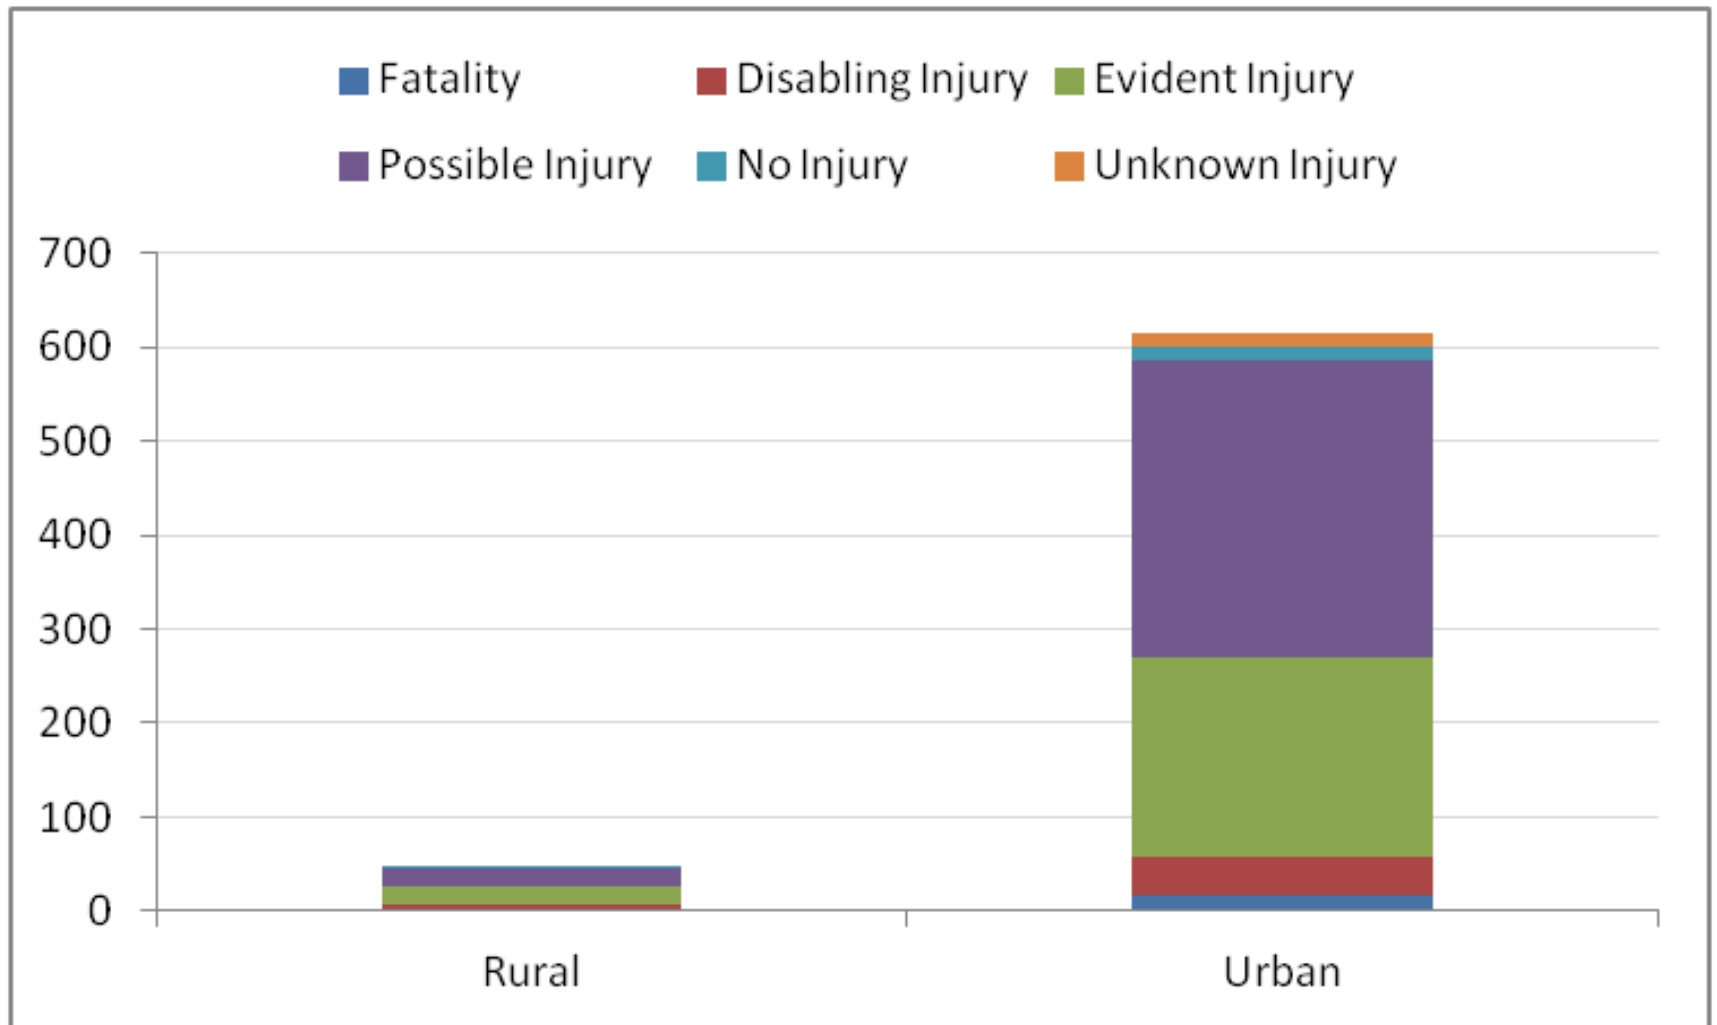

KEY FINDINGS – WHAT (Cont.)

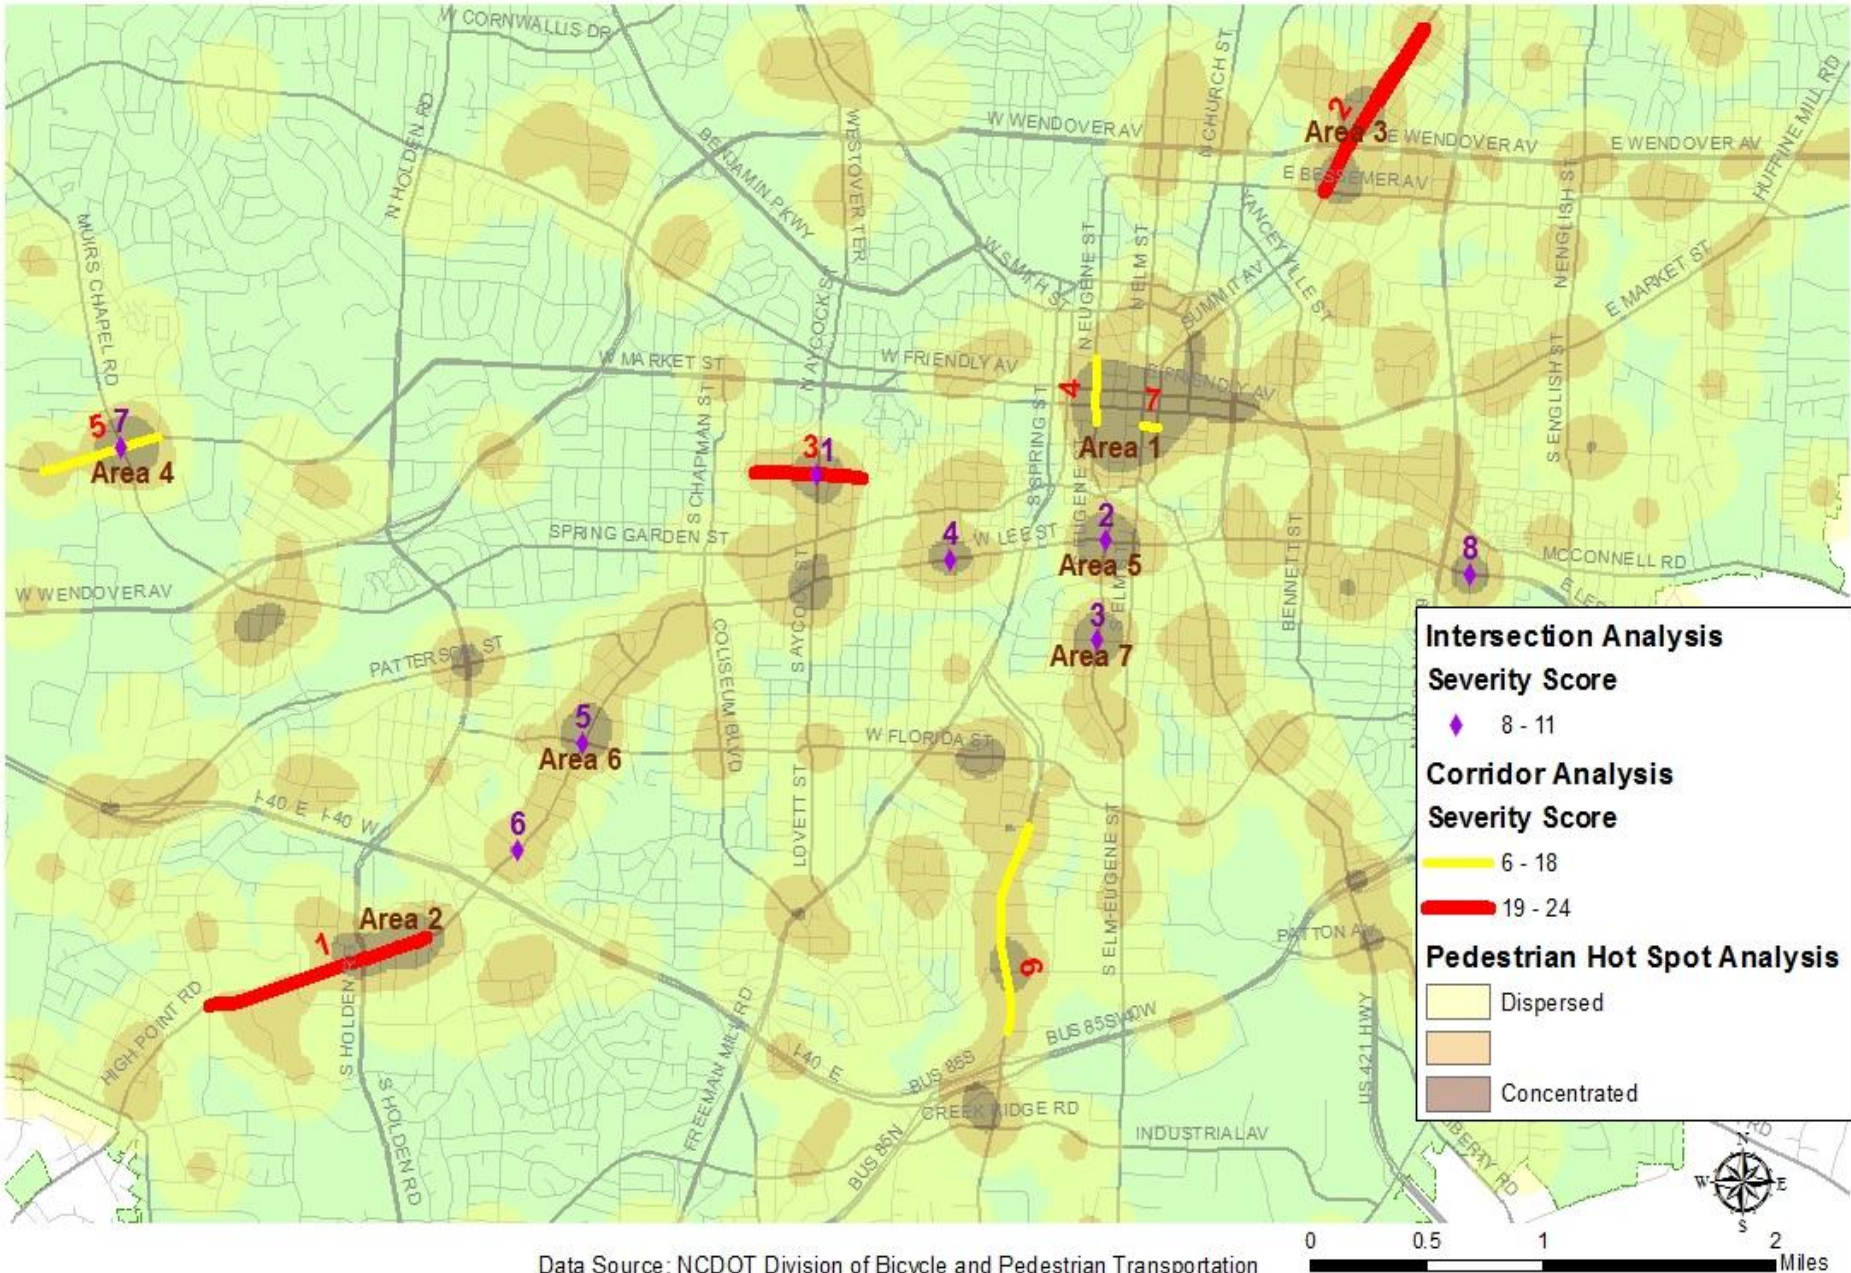

Pedestrian Crash Fatality in MPOs 2007-2011

KEY FINDINGS - WHERE CRASHES HAPPENED?

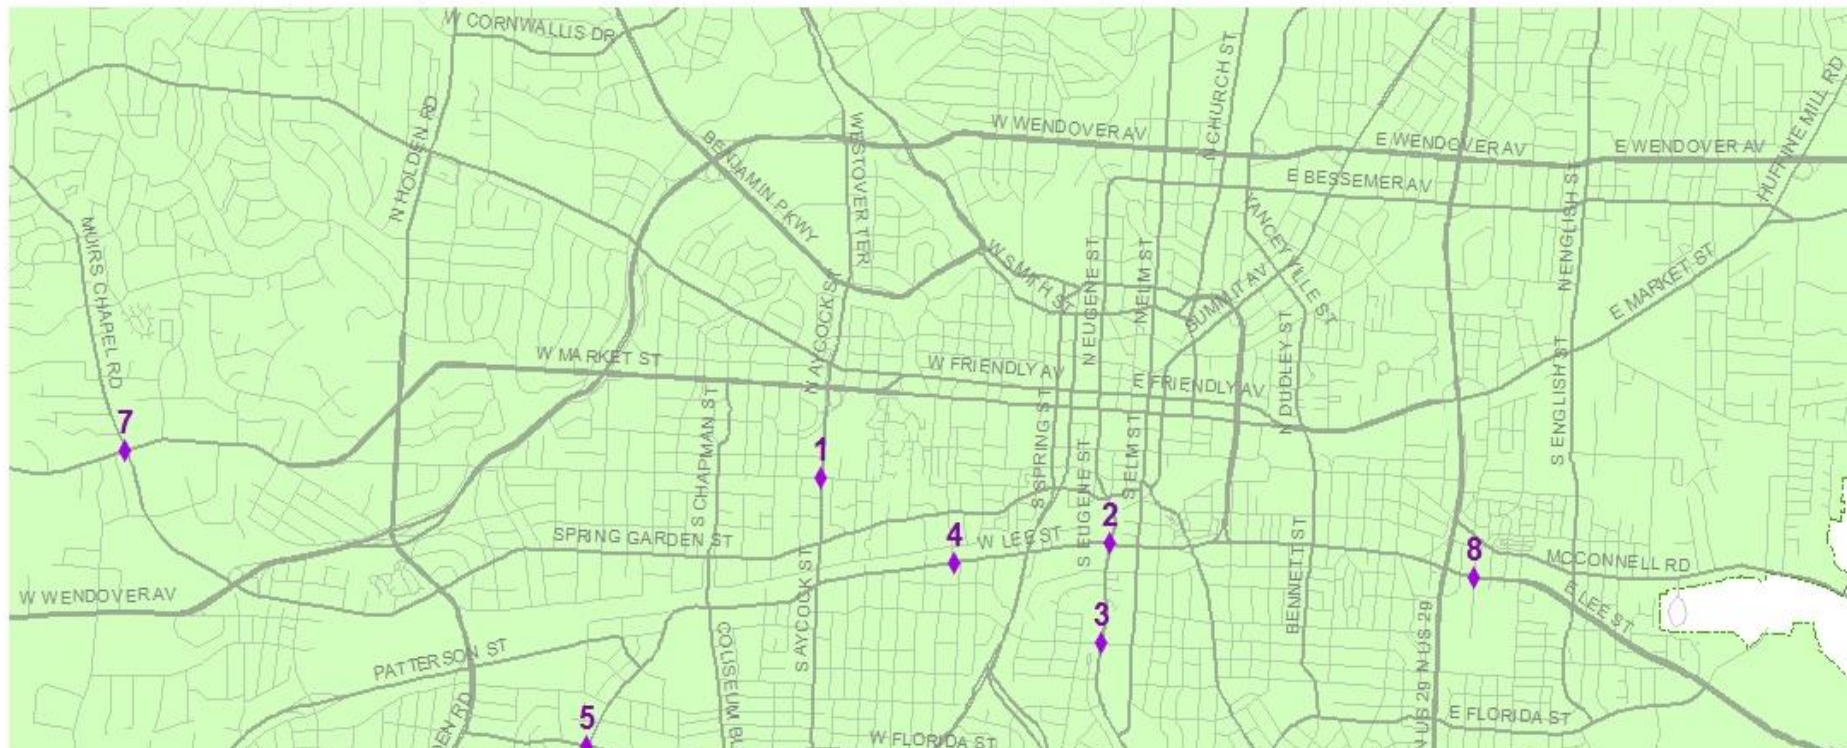

Pedestrian Crash Analysis

Pedestrian Crash Intersection Analysis

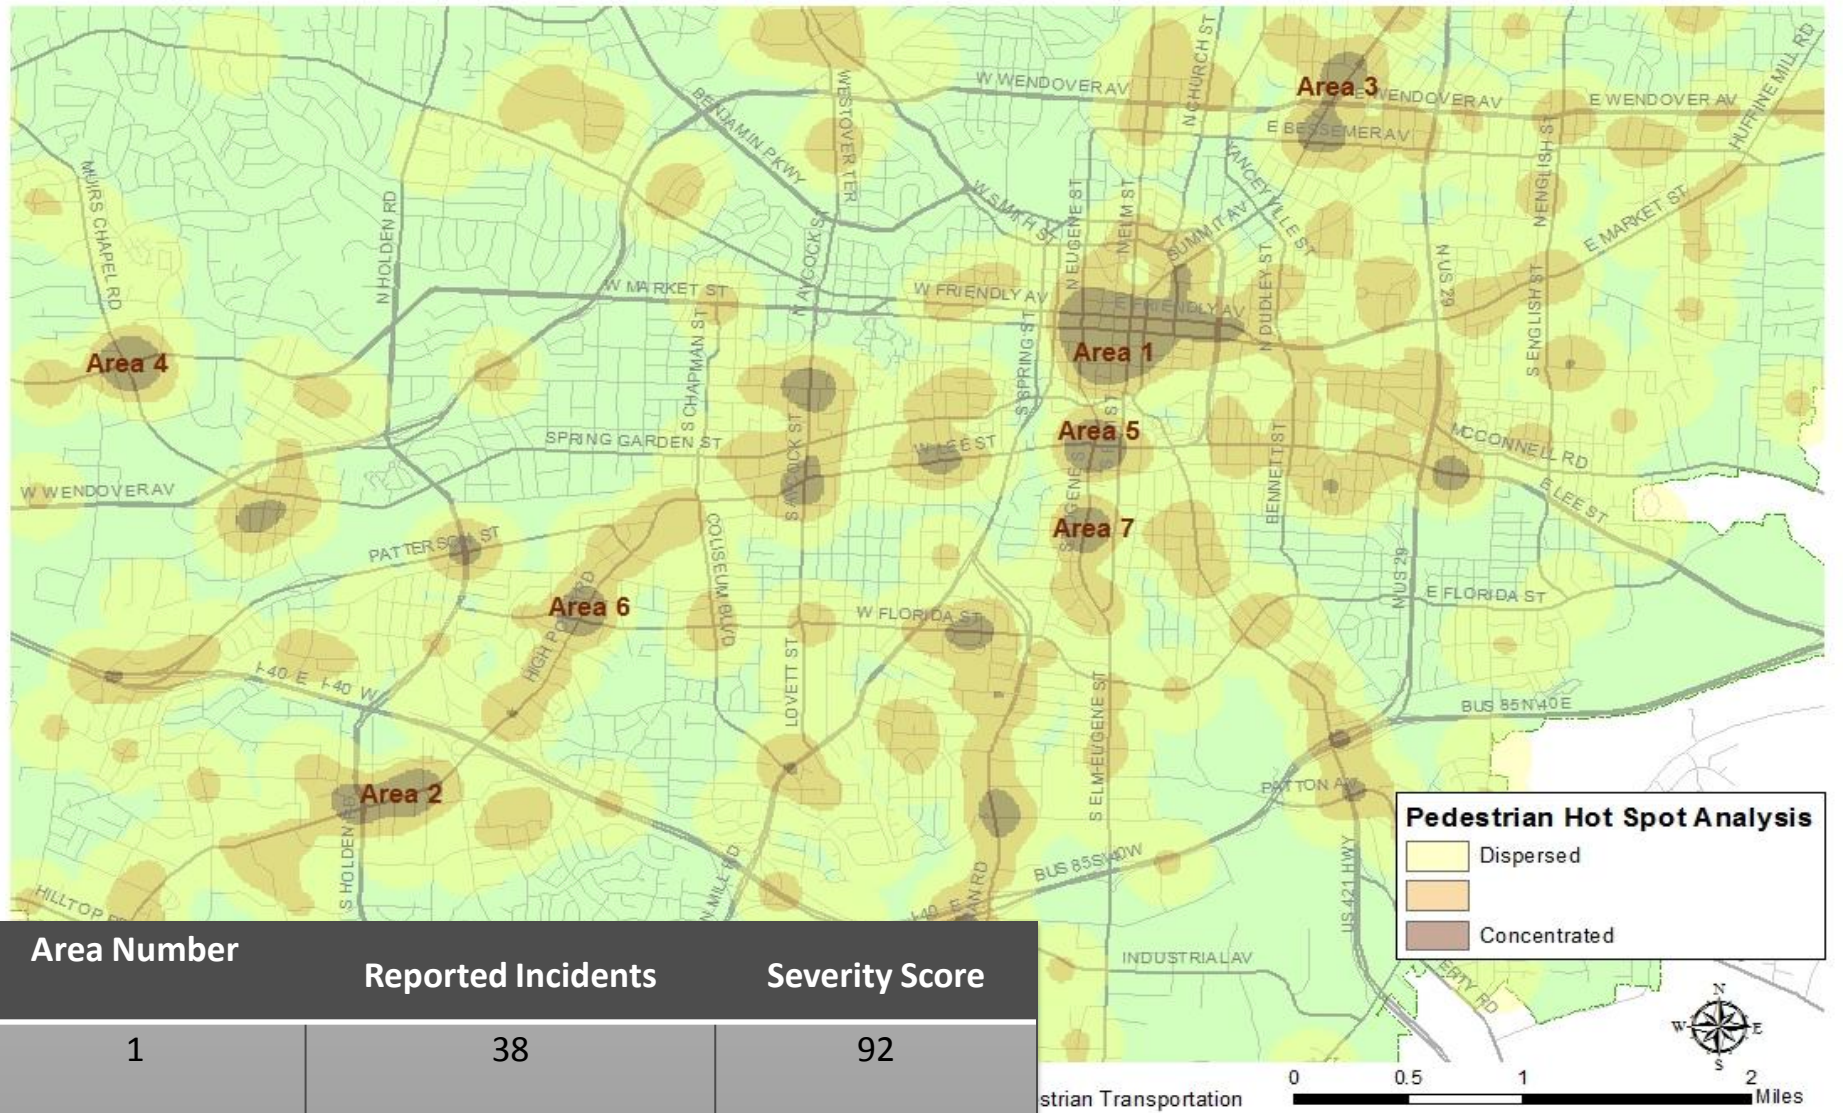

| Intersection Number | Street Name | Severity Score | Reported Incidents | Traffic Control | Pedestrian Traffic |
|---------------------|--------------------------------|----------------|--------------------|--------------------|--------------------|
| 1 | S Aycock St & Walker Ave | 11 | 5 | Stop And Go Signal | Yes |
| 2 | S Eugene St & W Lee St | 11 | 4 | Stop And Go Signal | Yes |
| 3 | S Eugene St & W Whittington St | 11 | 4 | Stop And Go Signal | Yes |

Pedestrian Crash Corridor Analysis

| Corridor Number | Street Name | From | To | Severity Score | Reported Incidents | Crash Rate per Mile |
|-----------------|-------------|------------|---------------|----------------|--------------------|---------------------|
| 1 | High Point | Merritt | Veasley/Koury | 24 | 9 | 24.67 |
| 2 | Summit | Bessemer | Textile | 22 | 7 | 18.98 |
| 3 | Walker | Kensington | West Dr | 19 | 8 | 41.46 |

Pedestrian Crash - Hot Spot Analysis

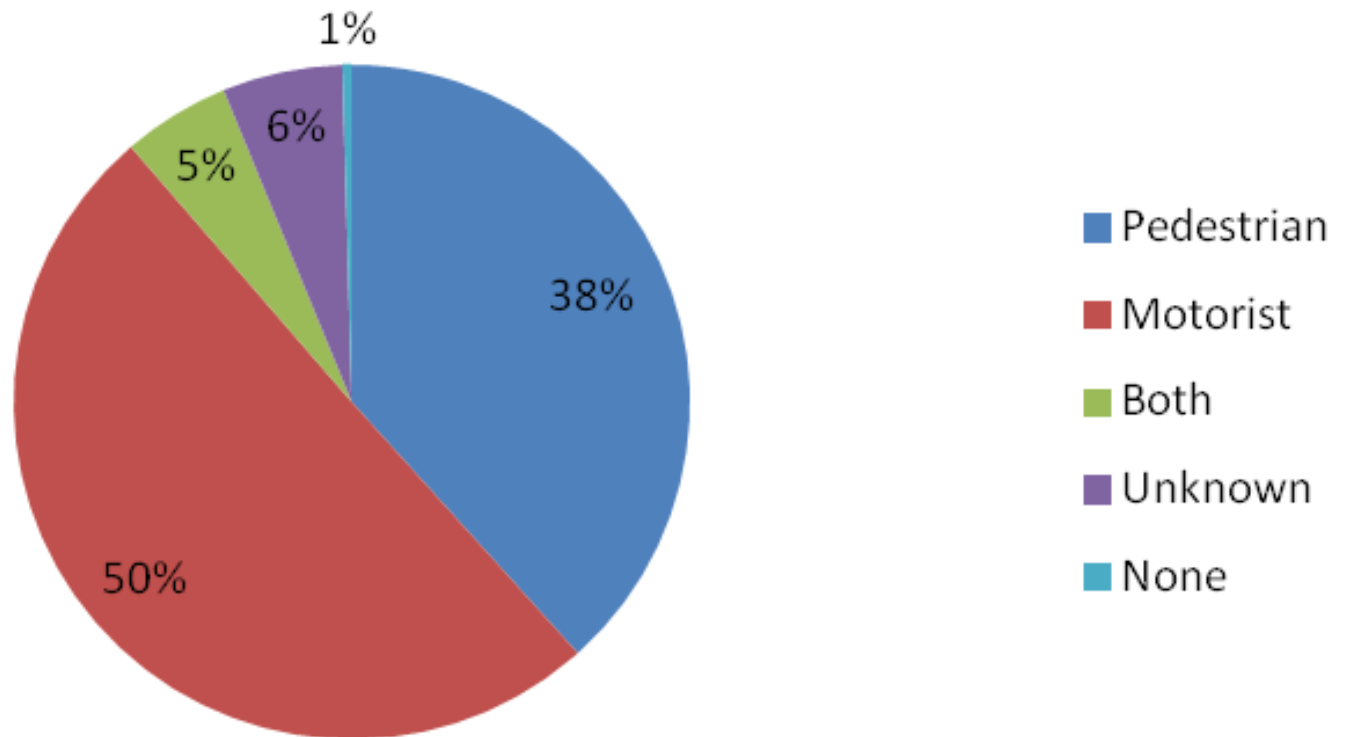

| Area Number | Reported Incidents | Severity Score |
|-------------|--------------------|----------------|
| 1 | 38 | 92 |
| 2 | 12 | 30 |
| 3 | 10 | 27 |

| Facility | Number of facility | ½ mile distance | | | | ¼ mile distance | | | |
|---------------------|--------------------|--------------------|---------------|-------------------|--------------|--------------------|---------------|-------------------|--------------|
| | | Number of facility | % of facility | Number of crashes | % of crashes | Number of facility | % of facility | Number of crashes | % of crashes |
| GTA bus stops | 1,103 | 995 | 90.2% | 555 | 84.1% | 737 | 66.8% | 452 | 68.5% |
| Schools | 148 | 51 | 34.5% | 180 | 27.3% | 29 | 19.6% | 49 | 7.4% |
| Retail centers | 137 | 100 | 73.0% | 293 | 44.4% | 83 | 60.6% | 160 | 24.2% |
| Industrial parks | 48 | 12 | 25.0% | 52 | 7.9% | 6 | 12.5% | 18 | 2.7% |
| Parks & Open Spaces | 612 | 241 | 39.4% | 430 | 65.2% | 129 | 21.1% | 186 | 28.2% |

| Category | Name | Location | Number of crashes | Severity score |
|----------------------|--|--------------------------------|-------------------|----------------|
| Parks and Open Space | Mural Park (Beautification Area) | 240 S Elm St, Greensboro | 18 | 44 |
| | Center City Park | 200 N Elm St, Greensboro | 13 | 32 |
| Bus Stops | Eugene St/ Market St | Eugene St/ Market St | 17 | 39 |
| | Davie St/Cultural Arts Center | Davie St/Cultural Arts Center | 15 | 37 |
| Retail Centers | Shoppes on Market | 4640 W Market St, Greensboro | 9 | 24 |
| | West Market Shopping Center | 4653 W Market St, Greensboro | 8 | 22 |
| | Visionworks Plaza | 3702 High Point Rd, Greensboro | 8 | 20 |
| Schools (K-12) | The Academy at Smith (High school, 9 th – 12 th) | 2225 S Holden Rd, Greensboro | 6 | 13 |

| Industrial Parks | South Atlantic Companies | 2018-2030 E Market St | 6 | 17 |
| | O'Neal Steel | 1451 S Elm-Eugene St | 3 | 9 |

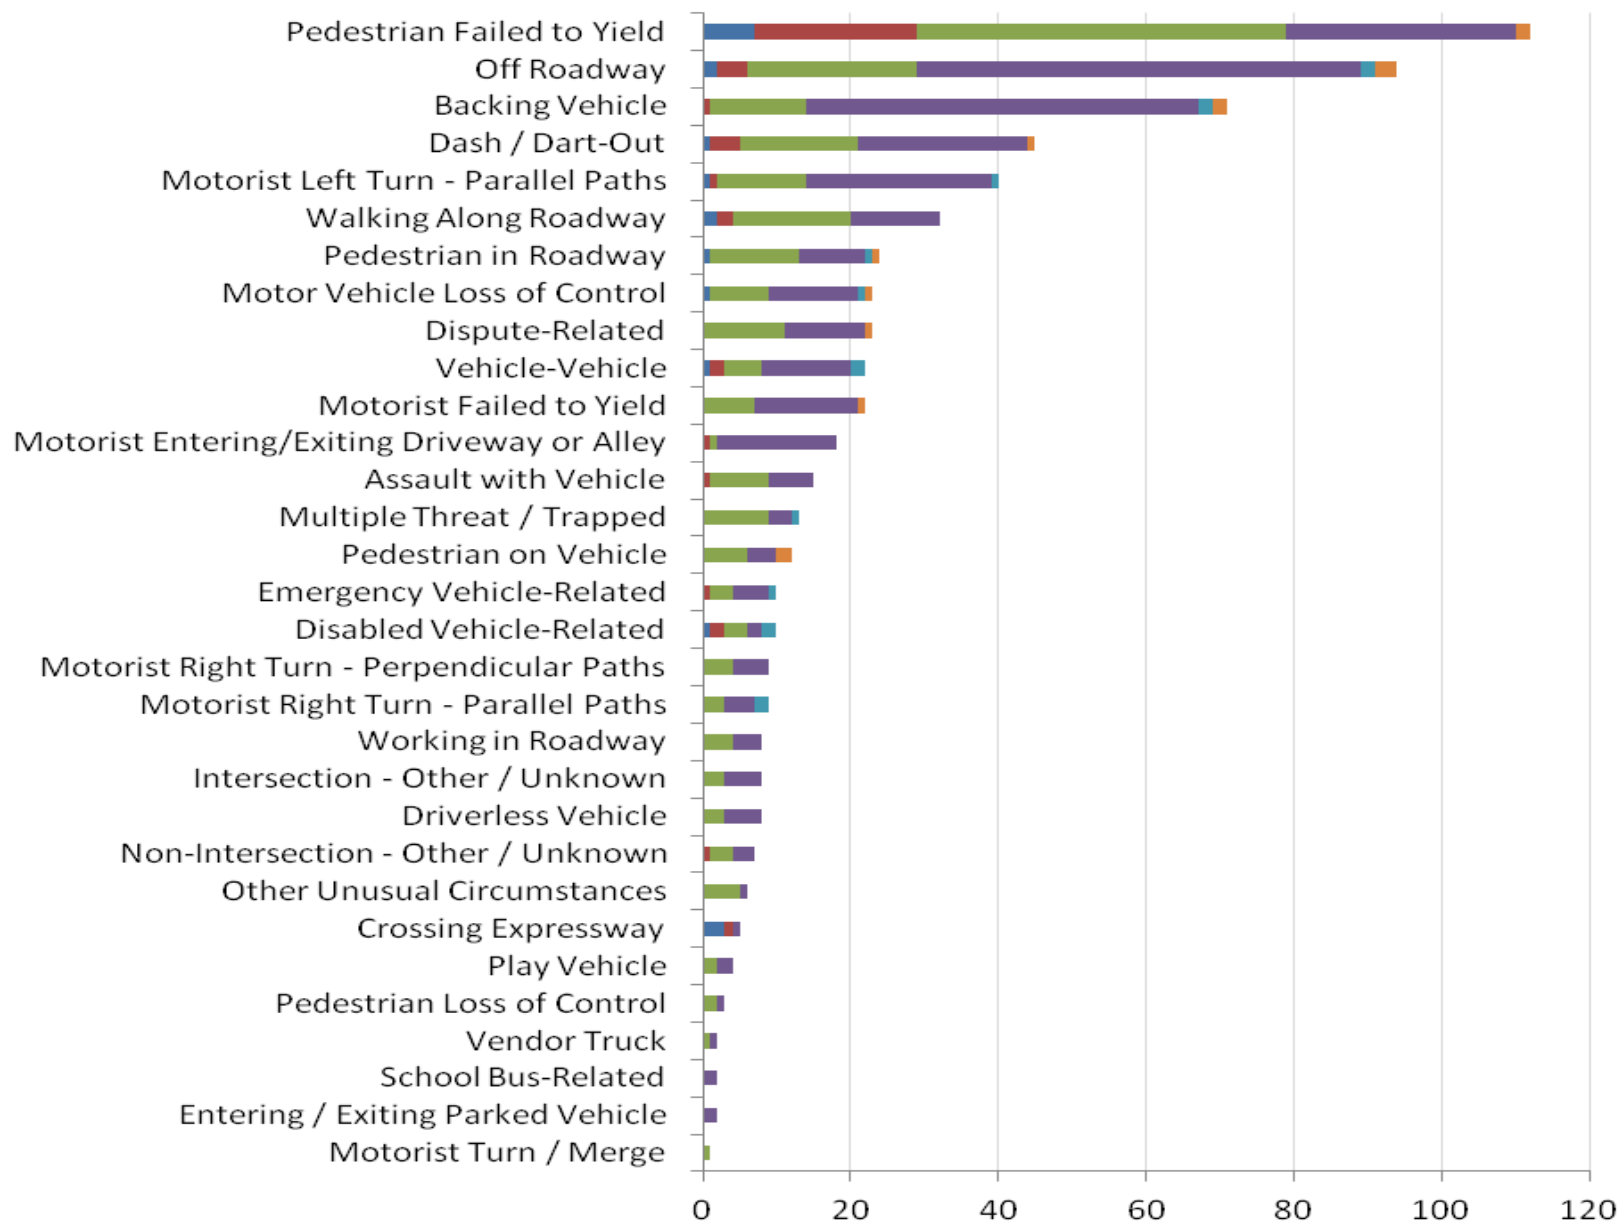

KEY FINDINGS – WHY CRASHES HAPPENED?

Contributed Factors in Crash

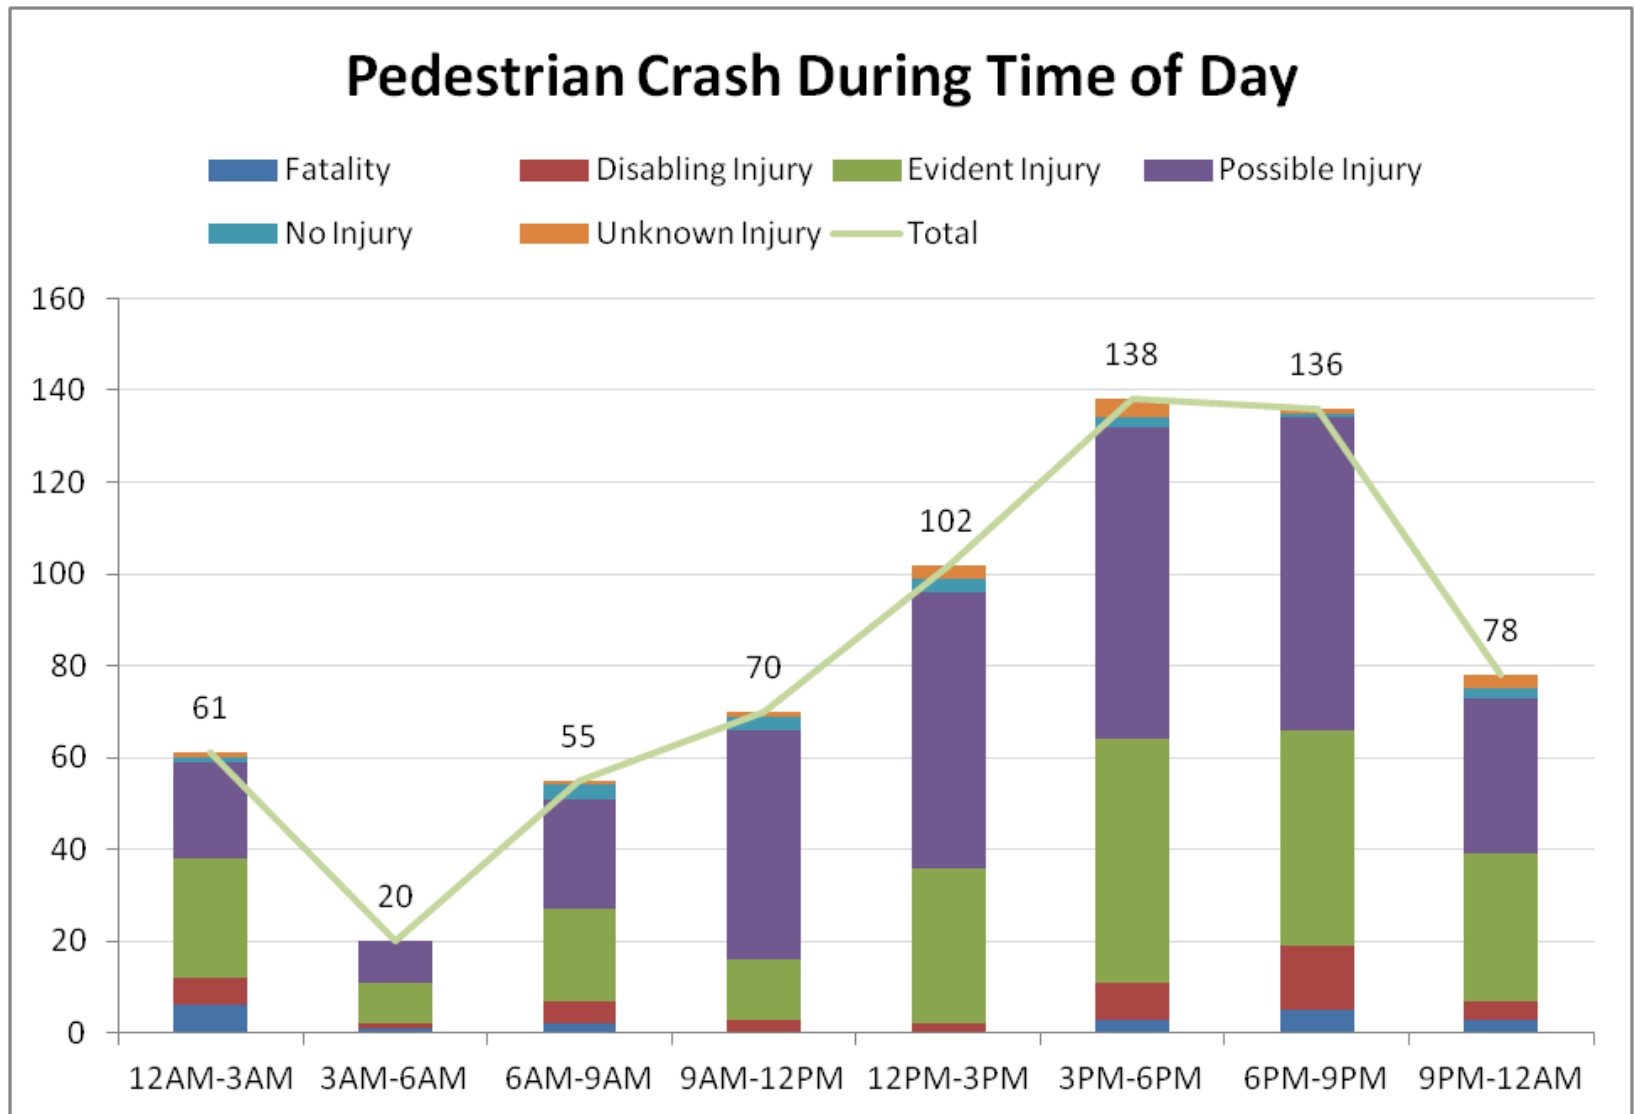

Pedestrian Crash Reason

■ Fatality
 ■ Disabling Injury
 ■ Evident Injury
 ■ Possible Injury
 ■ No Injury
 ■ Unknown Injury

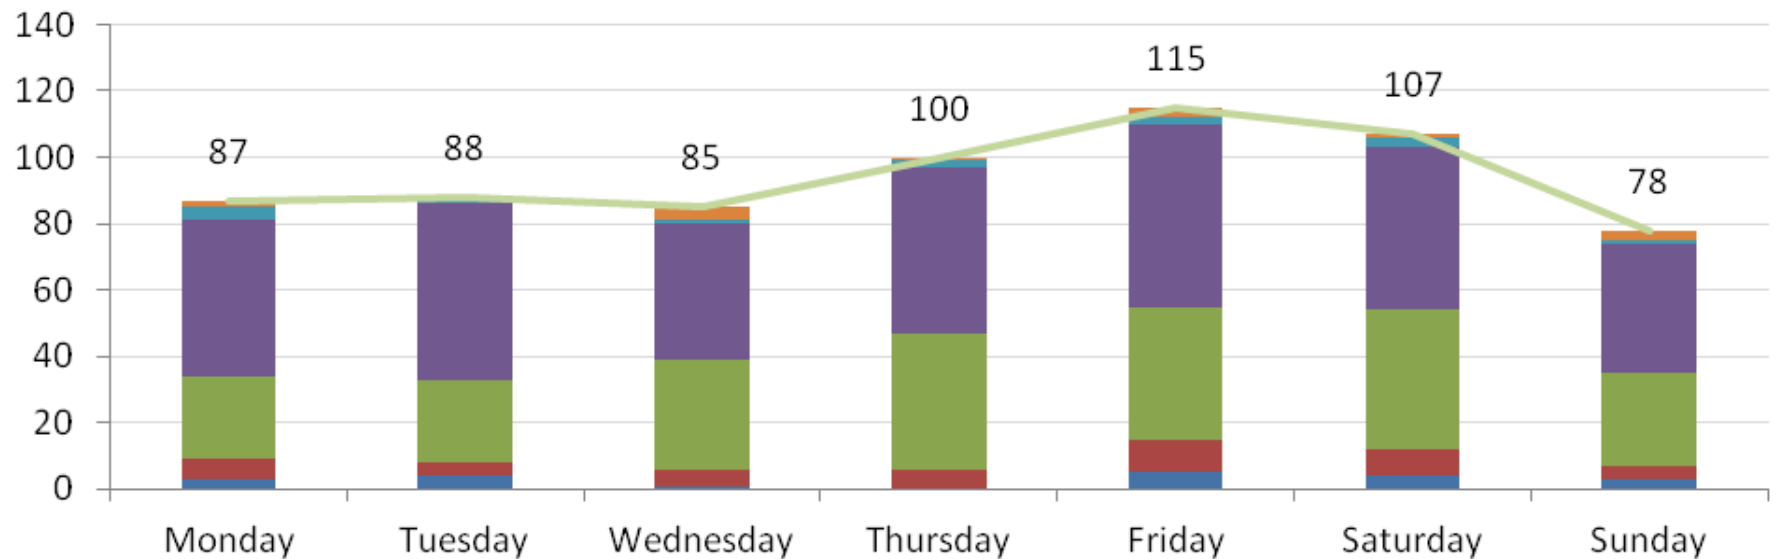

KEY FINDINGS: WHEN CRASHES HAPPENED?

KEY FINDINGS – WHEN (Cont.)

Pedestrian Crash During Day of Week

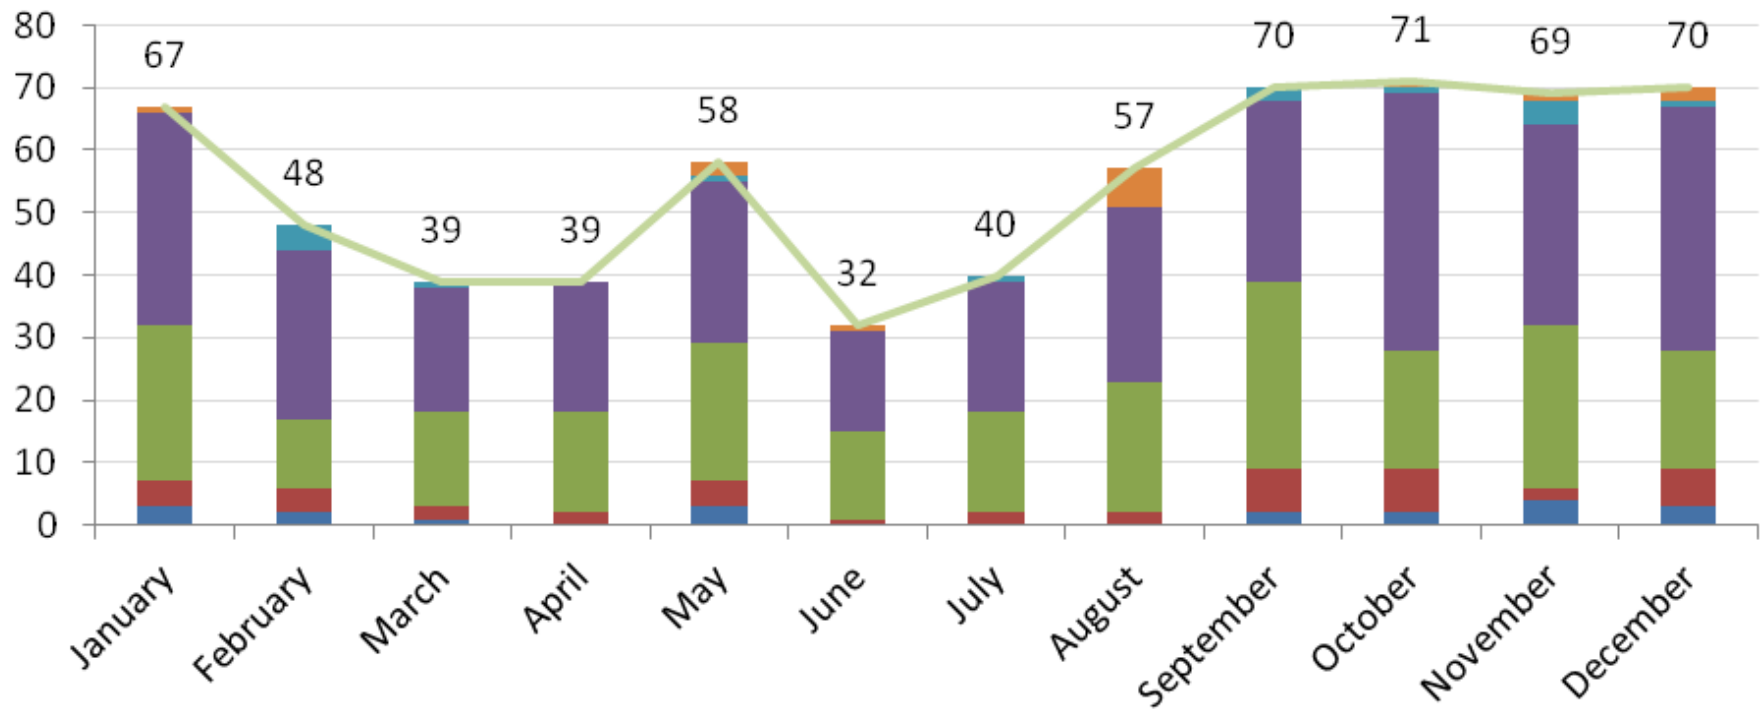

Legend: Fatality (Blue), Disabling Injury (Red), Evident Injury (Green), Possible Injury (Purple), No Injury (Teal), Unknown Injury (Orange), Total (Light Green line)

KEY FINDINGS - WHEN (Cont.)

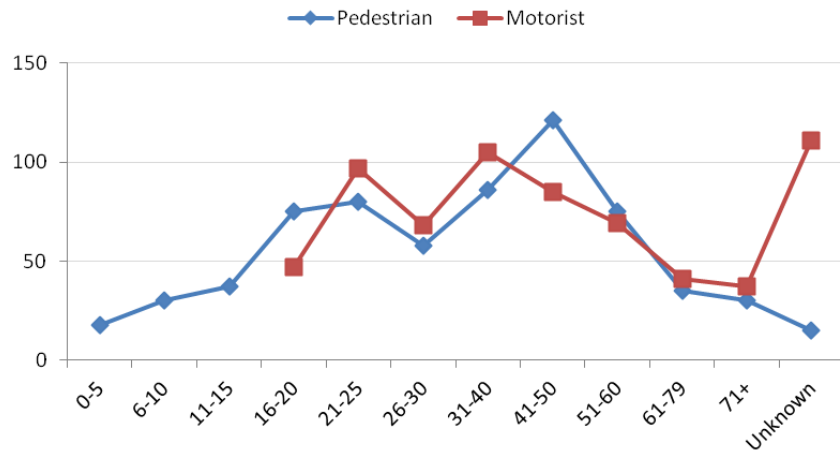

Pedestrian Crashes During Months of Year

■ Fatality ■ Disabling Injury ■ Evident Injury ■ Possible Injury
■ No Injury ■ Unknown Injury — Total

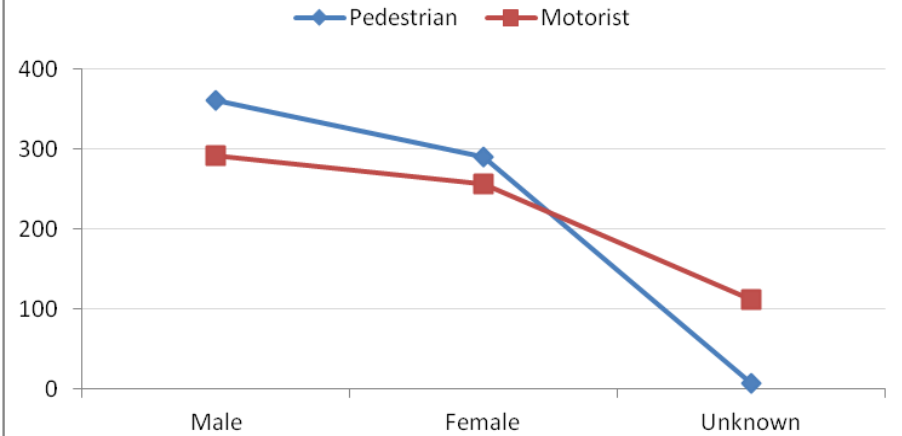

KEY FINDINGS - WHO WAS INVOLVED IN THE CRASH?

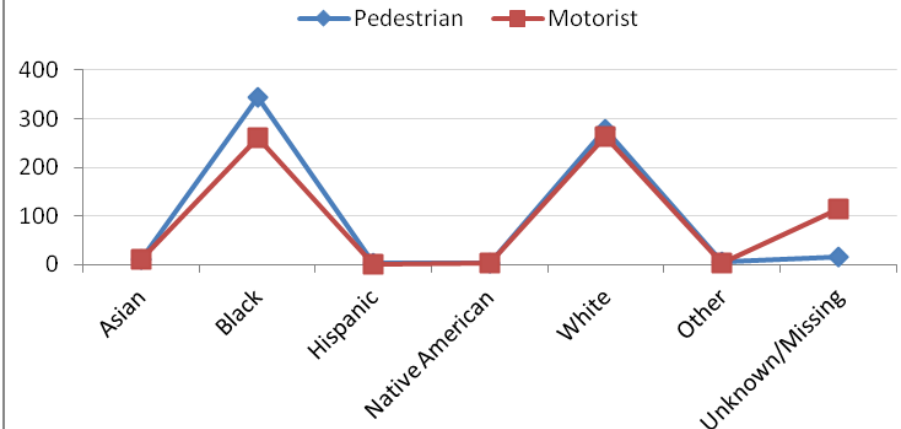

Pedestrian and Motorist Age Group

Pedestrian and Motorist Gender

Pedestrians and Motorists Race
